Dear Brian Christ,

We are writing to bring to your attention the amazing caliber of your employees and associates. We had the pleasure of working with Ron Jacobson and Richard Cross of S&B Consulting, and Richard Miller and Brian Porterfield of the Army Corps of Engineers over the last few months on the Red Rock Powerline Project and have to say it was the most pleasant tortoise monitoring experience we have ever had on a project.

Not enough can be said about their level of professionalism and quick response to anything we advised. The team aspect and mutual respect that was present on the job site between everyone from supervisors to laborers made collaboration easy. Thank you for giving us the opportunity to work with you.

Sincerely,

Melissa Sanders & Ryan Wallis
Great Basin Institute
Tortoise Monitors
