

S&B CHRIST CONSULTING, LLC.

S&B Christ Consulting, LLC (SBCC) offers Operations Research, Civil and Environmental Engineering, Vulnerability Assessments, and Construction Management for Federal and Public agencies.

CORE VALUES

- Integrity – We do what’s right, even when no one is looking.
- Quality – We have an ISO 9000 compliant quality program.
- Efficiency – Effective, hands-on project management allows us to meet budget and schedule.

MISSION STATEMENT

Our mission is to provide operations research, and civil and environmental engineering services with an emphasis on quality, functionality, and sustainability, through a focused approach on the client’s needs, resulting in projects on-time and on-budget.

VISION STATEMENT

Provide innovative and cutting edge solutions in science and engineering to meet our client’s objectives.

QUALITY STATEMENT

Provide superior customer satisfaction by focusing on the client’s objectives and conducting business in accordance with our core values.

MANAGEMENT PLAN

Utilizing a flat organizational structure, with proven and experienced project managers, we organize a team to best meet the project objectives following our core values. Our teams offer the following:

- Effective communication
- Help defining objectives
- Consistently high quality
- Cutting edge technology
- Innovative ideas
- Sustainable designs
- Projects on-schedule
- Projects within budget

CIVIL ENGINEERING

SBCC provides full service (phase I, II, or III) horizontal civil engineering services specializing in infrastructure design and 3-dimensional design. We utilize innovative technology and sustainable concepts in planning, feasibility, and design for design/build and design/bid/build projects. The civil engineering services we offer include:

- Facility Renovations
- New Construction
- Hydrology & Hydraulic Analysis (Storm Water/Water/Sewer)
- Subsurface Utility Engineering
- Facility & Utility Condition Assessment
- Value Engineering
- Utility Engineering
- ADA Path of Travel
- Roadways & Parking Design and Rehabilitation
- Water and Wastewater Treatment Engineering
- Sewer/Storm Water Condition Assessment and Engineering
- Vulnerability Assessments & Emergency Response Planning

ENVIRONMENTAL ENGINEERING

SBCC specializes in environmental services for compliance, permitting, and remediation. The environmental engineering services we offer include:

- Water & Wastewater Permitting
- Energy Audits
- NDPES
- Phase I and II Environmental Site Assessments
- SWPPP Preparation and Inspection
- Desert Tortoise Monitoring
- Spill Plan and Emergency Response Plan Preparation and Training
- Compliance Plan Preparation and Training
- Water and Waste Water System Engineering
- Remediation Site Investigation & Engineering
- Hazardous Material Management Plans

OPERATIONS RESEARCH

SBCC has expertise in electronic warfare and flight-testing for the Department of Defense (DOD). We have experience working on military ranges and test facilities in Nevada, California, Florida, and Ohio. SBCC's expertise lies in our exceptional data analysis capabilities having worked as both the government's representative to evaluate a technology and as a defense contractor's representative in proving a technology. The operations research services we offer include:

- Top Secret (TS) Facility Clearance
- Developing & Evaluating Specifications
- Test Planning
- Test Plan Preparation
- Test Execution Support
- Post Test Assessment and Statistical Analysis
- MTStat Expertise

CONSTRUCTION MANAGEMENT & CONSTRUCTION

SBCC has proven construction management capabilities enhanced by our design and 3D modeling capabilities. We provide large business capabilities with small business flexibility and responsiveness. SBCC has project managers, a construction manager, superintendents, and craftsman experienced on a wide range of federal projects. Our construction management services include:

- Construction Management
- Owner or Contractor Environmental Representative
- Cost Estimating
- Scheduling
- Subsurface Utility Locating
- 3D Modeling
- Value Engineering
- Heavy Civil Construction on Federal Projects
